Company Profile

Impel is a fintech innovator that provides secure messaging and payment rails globally to financial institutions and corporates for cross-border and domestic payments as well as advanced instant

settlement solutions allowing forward-thinking leaders to capitalize on next generation business operations via an ISO 2022 API and a bridge to the R3 Corda DLT platform.

Founded: 2021

Area Serviced: Worldwide

Internet Site: <https://impel.global>

Our Ecosystem Partners

R3 is a bank consortium-backed software firm that launched Corda, a private DLT.

US+ stablecoin provider, Fluent Finance, offers on/off fiat ramps via a consortium of banks.

Trace Financial, a 30+ year industry leader, offers an MT to MX conversion tool.

Live since 2019, the XDC Network is an energy-efficient "green" blockchain that supports Impel's solutions with its leading attributes:

- >> Designed for enterprise finance
- >> KYC compliant validating nodes
- >> Forensic monitoring for bad actors
- >> Smart contract functionality
- >> Fast & scalable
- >> Low operating cost (\$0.00001 avg. gas fee)
